

# An Inheritance

Written By Darryl M. Gumm  
July 2009

If the only inheritance we leave our children is a positive attitude, we will have left them something more valuable than gold.

Money can't buy happiness; Only a positive outlook on life can bring joy, fulfillment and success.

The one God who created the universe is the most positive force in existence. We can only know God when we are positive. We can only serve God when we are positive.

Jesus Christ was the most positive person to ever walk on the face of the earth. Jesus teaches us how to be positive, and with our lives, be God's heart and hands.

For we have one heart and two hands to use every day to spread God's Grace to all his hungry, sick and needy children; so He can raise them up, through us, in Love.

At the start of every new day, let us resolve to be positive in all that we do;  
And as the day concludes, let the positive energy we created today, be our hope for tomorrow.
